Guardians of the Gut: Timely Interventions in IBD Treatment

Prof. Dr. med. Luc Biedermann
Prof. Dr. med. Alain Schoepfer

Let's take the time to talk about an important guardian that significantly contributes to keeping IBD in check – holistic monitoring.

Prof Biedermann and Prof Schoepfer will elaborate on the basis of impressive patient cases how the comprehensive assessment of disease activity and the subsequent timely therapy adjustments can influence the course of these diseases.

We look forward to seeing you.

The AbbVie Gastroenterology Team
