Performance All Day - Shoes

Cloud 6 Coast

Cloud 6 WP

Cloud 6

Improved cushioning Sustainable

Same iconic look. Even better feel. The shoe's geometry is upgraded in shape, structure and volume – for superior comfort, cushioning and stability, plus reduced pronation.

Sustainable materials

We're continuing our sustainability journey with a total recycled content of about 23-25%. Plus a 50% bio-attributed midsole that reduces the bottom unit's CO2 footprint by 20%.

Lightweight and breathable

One for the wanderers. The Cloud 6 Coast gets even more lightweight, with an updated mesh pattern for increased breathability and air circulation – and they're still packable too.

Wear barefoot

No socks, no problem. The Cloud 6 Coast is made for comfortable barefoot walking, with a silver-free anti-microbial lining plus a cushioned kick-down heel – made to wear your way.

Collections

Midsole / Outsole

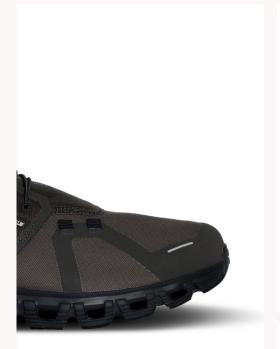

The midsole is 50% bio-attributed, reducing the bottom unit's CO2 footprint by 20%. An updated outsole features connected rubber pods for better traction, grip and durability.

Upper

The polyester used in the shoe's upper is 100% recycled. We've updated the lightweight engineered mesh pattern to create more air flow too, so feet feel fresh.

Speedboard

The Speedboard® is engineered for optimal all-day performance, torsional support and stability – stable landings, soft toe-offs.

Closer fit

Updated engineering ensures the Cloud 6 Waterproof holds a better shape, with an improved snug fit. Elevated comfort levels, without sacrificing on stability or weather protection.

Improved geometry

Same iconic look. Even better feel. With upgraded geometry in shape, structure and volume – for superior comfort, cushioning and stability, plus reduced pronation.

Step-in comfort

It's all in the details. The shoe features a new sockliner for easy step-in, plus a wider opening for a more inclusive fit and an improved back heel construction.

Waterproof membrane

Top-to-toe style, even in the rain. The shoe features a waterproof PFAs-free membrane to keep feet dry, updated with a two-tone mesh for improved performance and durability.

Midsole / Outsole

The midsole is 50% bio-attributed, reducing the bottom unit's CO2 footprint by 20%. An updated outsole features connected rubber pods for better traction, grip and durability.

Speedboard

The Speedboard® is engineered for optimal all-day performance, torsional support and stability – stable landings, soft toe-offs.

Upper

Made from 100% recycled polyester, the upper features a two-tone PFAs-free waterproof membrane with a tighter-structured mesh on the saddle for improved durability.

Step-in comfort

It's all in the details. The Cloud 6 features a new sockliner for easy step-in, plus a wider opening for a broader, more inclusive fit and an improved back heel construction. (And it's available in extended sizing too.)

Improved geometry

Same iconic look. Even better feel. The Cloud 6's geometry is upgraded in shape, structure and volume – for superior comfort, cushioning and stability, plus reduced pronation.

Another step to sustainability

Featuring an upper with a total recycled content of 35%. Plus, a 50% bio-attributed midsole that reduces the bottom unit's CO2 footprint by 20%.

Durable materials

Now abrasion-tested on the front and backside to withstand daily wear, the Cloud 6 has enhanced durability to last longer. That's not just a win for you, but for the planet too.

Improved Missiongrip™

The Missiongrip™ outsole is re-engineered with a new rubber compound and an updated tread pattern. For improved grip on technical terrain.

Light and versatile

Lightweight, sleek and versatile, the Cloudrock Low WP feels agile on your feet. It's ideal for hikers who pack light and want to move fast through mountainous terrain.

Running-inspired build

Inspired by the design of our lightweight trail shoes, the Cloudrock Low WP combines the cushioned comfort of a running shoe with the confidence and stability of a hiking boot.

Step into comfort

Using Helion™ superfoam, we ramped up the cushioning in the midsole for a softer step-in experience. The new X-shaped Speedboard® provides the ideal balance of flex and stability.

Collections

Upper

The waterproof upper is made from 100% recycled polyester and keeps feet fresh and dry. Made using 30% recycled materials, the toe cap provides protection and increased durability.

Midsole / Outsole

Helion™ superfoam softens every step, providing the kind of comfort and support you'd expect from a cushioned trail running shoe.

Speedboard

Made from a flexible yet strong nylon-blend, the X-shaped Speedboard® connects the heel and forefoot, helping to support a smooth rolling motion from heel to toe.

Ankle protection

The padded collar protects the ankle from the elements, as well as rocks, roots and loose terrain. Its updated construction prevents pressure points for a snug and comfy fit.

Step into comfort

Using Helion™ superfoam, we ramped up the cushioning in the midsole for a softer step-in experience. The new X-shaped Speedboard® provides the ideal balance of flex and stability.

Running-inspired build

Inspired by the design of our lightweight trail shoes, it combines the cushioned comfort of a running compound and an updated tread shoe with the confidence, protection and stability of a hiking boot.

Improved Mission Grip™

The Mission Grip™ outsole is re-engineered with a new rubber pattern. For improved grip on technical terrain.

Upper

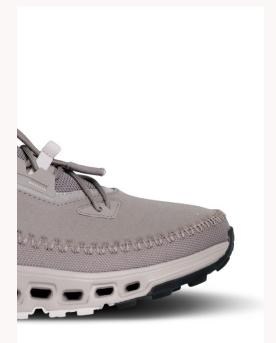

The waterproof upper is made from 100% recycled polyester and keeps feet fresh and dry. Made using 30% recycled materials, the toe cap provides protection and increased durability.

Speedboard

Made from a flexible yet strong nylon-blend, the X-shaped Speedboard® connects the heel and forefoot, helping to support a smooth rolling motion from heel to toe.

Midsole / Outsole

Helion™ superfoam softens every step, providing the kind of comfort and support you'd expect from a cushioned trail running shoe.

More recycled materials

89% of the polyester used to make the Cloudaway 2 is now recycled, a 9% increase from the previous model. We've also bumped the shoe's total recycled content up to 25%.

Better breathability

It's the style you love, with an improved fit and feel. A new microfibre tongue means better breathability and adjustability, while the wider toe box provides a roomier fit.

Water-repellent upper

A new DWR (durable water repellent) layer on the upper and mudguard prevent water from soaking into the shoes, providing extra comfort and protection in light rain and wet grass.

Trail-running outsole

Redesigned using the Cloudultra's proven bottom unit, the Cloudaway 2 features an ultra-sticky Missiongrip™ outsole ready to take on tough terrain.

Soft engineered mesh made with recycled polyester for lightweight comfort and flexibility.

Midsole / Outsole

Missiongrip™ rubber outsole EVA midsole Helion™ superfoam

New midsole design

A more pronounced rocker means smoother steps and a softer heel-to-toe transition. Softer cushioning and a higher stack height provide more comfort and a better feel underfoot.

More responsive ride

With its minimalist, two pronged-design, the shoe's springy new Speedboard® provides more rebound and responsiveness. For a ride that's faster and more fun.

Better traction

New, ultra-sticky Missiongrip™ rubber prevents slipping, even on smooth surfaces. And for better traction, we've updated the tread pattern and added bigger, more aggressive lugs.

Less plastic

The Cloudvista 1 used 73cm² of thermoplastic protection overlays. Now, thanks to new durable alternatives, we've more than halved it – reduced down to just 23cm².

Speedboard

The re-engineered Speedboard® delivers the perfect balance of stability and flexibility.

Midsole / Outsole

Hidden CloudTec® made from Helion™ superfoam delivers smooth, all-day comfort. And a rubber outsole gives you plenty of grip.

Upper

With minimal stitching, matte faux leather and a clean, refined silhouette, the reimagined upper is more comfortable and stylish than ever.

Play hard off court

Stay in the comfort zone until you decided it's time to stop. Inspired by Roger's competition shoes, a hidden cage supports your every move. And with big cushioning and high flex, you'll want to move.

Different is cool

Get the tennis-inspired look you love without having your feet overheat. With an engineered mesh upper, THE ROGER Spin keeps your feet cool even on warm summer days.

THE ROGER Pro on the go

With a look and tech inspired by THE ROGER Pro, Roger's on-court shoe, THE ROGER Spin makes elite-level performance and comfort accessible for every day – no ranking necessary.

A more circular spin

THE ROGER Spin feels even better when you know it's made from over 25% recycled content. Around 95% of the polyester in the shoe is recycled, making it the most sustainable shoe in THE ROGER collection.

Cloudpulse Next

Softer cushioning

The Helion™ superfoam midsole feels softer and more cushioned underfoot. Extra padding in the heel means more comfort while running.

More stable. More soft.

For lateral stability, the midfoot cage and star lacing system wrap around the foot. Softer, plusher materials in the heel and tongue provide enhanced comfort.

New Speedboard® design

Take on movements like mountain climbers and burpees in total comfort with the new X-shaped Speedboard®. Made with a pliable nylon-blend for better forefoot flexibility.

More sustainable steps

The new, 100% recycled mesh upper is now even more breathable. Plus, for the majority of FW24 colorways, the upper's yarn is dope dyed – a process that requires 90% less water.

Collections

Upper

Made using at least 90% recycled polyester that's thinner and more breathable. Eight of the ten colorways launching in FW24 feature a dope-dyed upper for reduced water usage.

Midsole / Outsole

Helion™ superfoam midsole with a softer underfoot feel. Rubber pads on the outsole for enhanced grip.

Speedboard

New, X-shaped Speedboard® made from a flexible nylon blend. Expect more bend and flex during multi-lateral movements.

Easy to wear

Lightweight and easy to wear, taking you smoothly from street to studio on busy days.

Soft step-in

A moving core midsole delivers an extra soft stepping-in sensation.

Versatile workouts

For treadmill warmups, bodyweight movements, HIIT classes, and more.

Cushioned comfort

Soft cushioning makes this shoe suitable for runs, training, and all-day comfort.
