

Nenad Tomasevic

Chief Executive Officer & Founder, Dren Bio

Nenad Tomasevic co-founded Dren Bio as CEO in May 2019 and has served on our board of directors since inception. Dr. Tomasevic most recently served as VP of Research for Allakos, a company he helped co-found after identifying the original opportunity for developing therapeutic antibodies against Siglec-8. During his time at Allakos, he was responsible for all research and nonclinical development functions. Prior to co-founding Allakos, Dr. Tomasevic previously held positions at KaloBios and Nuvelo, where his focus was on the development of therapeutic antibodies. Dr. Tomasevic began his career at Cytokinetics after receiving his PhD in protein chemistry from the University of Belgrade and completing his postdoctoral training at the National Institutes of Health (NIDDK, Genetics and Biochemistry Branch) in Bethesda, Maryland.
